

Terra Firma Farm Home School Days

Welcome Homeschoolers! Terra Firma Farm offers farm animals, gardens and woodlands to the willing minds, hearts and hands of homeschoolers! Here at the Farm, students have a chance to explore woods, fields and care for the animals, work in our garden, build, write, and learn through experience. Our Home School Program takes full advantage of the rich curriculum provided by Terra Firma Farm's animals, gardens and natural areas. We will combine hands-on (animal care, gardening, building, data collection) with quiet time (journal writing, reflection, drawing). We will meet all of the farm animals and discuss the farm cycles which involve animals (manure to soil, hay to milk and eggs). Once familiar with the entire menagerie, we will get our hands into farm projects that will lead us through the barns, pastures and gardens! Home School days are designed for children to be dropped off, with learning and laughter guaranteed!

April 8th & 22nd : Green Thumbs

While April weather can still be a little chilly outside- the greenhouse welcomes us as spring will be here soon. Students will get their hands dirty as we mix compost, make potting soil, start seeds and get gardening!

May 13th & 27th : Leaping Lambs & Shear Delight

Come celebrate this special time of year! Visit our new lambs, watch their moms get sheared, wash the fleece and learn how to hand spin. Try your hand at the art of felting, taste some sheep's milk cheese and more!

June 10th & 24th : The New Rabbitry

The farm has started a new rabbitry here on the farm. We have new does and bunnies ready to hop around and nestle in your arms. Come peak in the nesting boxes for new bunnies and meet some long eared, big footed new friends. We will learn all about rabbits and their bunnies, count new arrivals and move some new litters outside!!
